Absolute Navetta 73

The new NAVETTA 73 is a great step forward for the ABSOLUTE YACHTS, not only in terms of size, but also because with this new flagship the Italian shipyard can finally express all its potential for innovation both in design and in the realization of new spaces as you will see, go far beyond the expectations of even the most demanding and navigated user.

In fact, at its first international appearance at the 2017 Cannes Yachting Festival, NAVETTA 73 WAS AWARDED BY AN INTERNATIONAL JURY COMPOSED BY DAYS AND EXPERTS FROM THE SECTOR AS THE MOST INNOVATIVE IMBARCATION OF HIS CATEGORY.

Winning was the choice of the new Volvo penta IPS 1350 engines to push it up to over 26 knots in a surreal silence, but above all, the Flybridge size of 55 square meters without steps was interrupted to interrupt the harmony of a space that is unlikely you will see on larger boats and in particular has been the layout of the interior with unique choices that made it possible to create a private cabin with private access, positioned at the bow on a raised level compared to the 3 guest cabins, all with their elegant ensuite bathroom enriched and embellished with true luxury finishes.

NAVETTA 73 offers its guests panoramic windows that have an amplitude to make contact with the sea an experience to enjoy for 365 days a year, while the crew can rely on an area with private access from the stern and can accommodate up to three people with independent access from the aft mirror.

The navigational skills are of the highest order, the straight forward cargo shrouds the waves in a decisive way, greatly increasing the comfort even with the swinging sea, the hull studied for the different gears fits perfectly both at low and high speeds, demonstrating remarkable talents of stability even with wind and sea across.

Technical data

Length: 22.38 m

Draft: 1.45 m

Fuel tank: 4000 l

Cabins: 4

Crew: 3 (2 cabins)

Width: 5.58 m

Speed: 22 - 26 mph

Water tank: 1000 l

Bath: 4

Extra equipment
